

**My name is Julia.** Nine months ago my family adopted 2 kittens from Robin D. who was taking care of them after they had been rescued from a hoarding situation in Canandaigua in 2014. My Mom surprised me one night after saying “no” to getting kittens. We named them Ziggy & Zeus. Ziggy got his name from the zig-zag pattern on his tummy and Zeus got his name because he is bigger than Ziggy.

They both seem very happy here, they are always running around after each other (our house is the new Arizona Speedway) and they love our screened in porch. Currently their favorite toy is an ice cube. It doesn't matter where they are in the house as soon as the ice machine on the front of the fridge makes noise they bolt to beg for an ice cube. We love them lots and they get lots of attention. They are the silliest cats we have ever had and their personalities are very unique.

Thank you for letting me share my story! Julia
